Subject: Use the current recession to become a millionaire

You don't know me, but I want to make you rich ... a millionaire, in fact.

Now.

Even in this awful economy.

Actually ... BECAUSE of this awful economy, this recession we find ourselves in.

My name is Dan Kennedy, and I've helped hundreds of people — some just like you — turn their businesses and lives around and become wildly successful.

I've been around for a while. I've experienced two recessions, and I've made (still am making) a lot of money during both. This is what I've learned:

Economic recession creates frustration for most, but new wealth-building opportunity for many.

That's right ... wealth-building opportunity. Created by economic recession.

And guess what? The deeper and longer the recession, the greater the opportunity.

See, the fact of the matter is that when other people take themselves out of the game, those of us who remain have an easier time attracting attention ... attracting interest ... attracting traffic, leads ... CUSTOMERS!

And you and I both know that more customers means more profits, more wealth.

This is true no matter what business or industry you're in. In order to skyrocket your success, you must attract prospects, customers, clients and patients who are eager to do business with you. And you must do it efficiently and consistently.

The key is this principle of attraction ... specifically, practical attraction for profit.

That's how I'm going to help you.

I'm going to give you immediate access, right now, to my special report — *Secrets of the Recession-Made Renegade Millionaires*.

In the report, I'll show you how to use the principle of attraction for profit to create massive wealth for yourself and success for your business.

Mild-mannered Clark Kent had to rip off his business suit and glasses to reveal his true Superman identity. Superman was always under there, just waiting to emerge and be victorious ...

I'd like to think that underneath the Clark Kent exterior we show the world, we all have a bit of Superman inside us, too. So, I'd like you to think about this:

Is there a Recession-Made Renegade Millionaire hiding beneath YOUR business-as-usual suit?

If there is, [grab your copy of my FREE report right now](#), and get ready for the wealth you want.
